

# How to log into Link2CHOP with Azure AD

#### Introduction

This tip sheet will show you how to log into Link2CHOP. You must set up Multi-factor Authentication (MFA) the first time you log on. Steps 4-9 only apply to the first login. After MFA is complete, login requires only steps 1-3.

### Logging into Link2CHOP

Link2CHOP can be accessed using the following URL: <u>https://link2chop.chop.edu/</u>

below for more help.)

up to confirm Link2CHOP logins. Click "Set up" and follow the prompts. (See the section Children's Hospital of Philadelphia

# How to log into Link2CHOP with Azure AD

We	Welcome to Link2CHOP				53 <b>O</b>		
	Children's Hospital of Philadelphia	Select Patient	Open Chart Review	Place Order	My Groups		
	🖾 Unread Messages ĸ	★ Quick Links					
	First Access (41) MyChart Pt Advice Request (1705) MyChart Pt Cancel Appt Request (6) MyChart Pt Schedule Request (412) Patient Questionnaires (73) † Pt Access Login Admin Alert (15)		Training Documents   User Guide(PDF)   Ordering Referrals(PDF)   Creating a New Patient(PDF)   Modifying Event Notifications(PDF)   Forms   Complex Scheduling Form   External Websites   CHOP Home Page   Physician Referral Services				
	<b>No-Show Event Notification</b> A new event notification has been added to alert you when a patient 'no-shows' for a scheduled CHOP appointment. For most users, you will automatically receive the No- Show notifications. Please refer to the document in the Tip Sheet section. <i>Modifying</i> <i>Event Notifications</i> , to make changes to the default setup.		Receiving Messages in Link2CHOP The Link2CHOP In Basket "email" system is for receiving messages only. For urgent medical matters, please use other methods of communication.				

You now have access to the Link2CHOP home page!

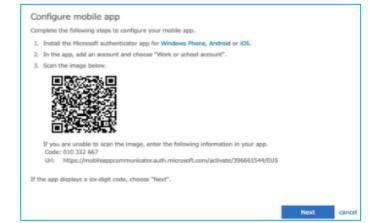

**NOTE\*** For future logins, you will only need to follow **steps 1-3**. After you confirm your identity using the method you just set up, it will take you directly here.

### Help with Microsoft Authenticator:

If you are setting up the Microsoft Authenticator Mobile App (Step 7 above) follow these steps:

 After clicking Set Up in step 7 above, if you don't already have it, go to the app store on your phone to download the MS Authenticator version appropriate for your device. <u>Microsoft</u> <u>Mobile Phone Authenticator App | Microsoft</u> <u>Security</u>.

2. Once it has downloaded, or if you already had the application, Add Work Account and use your phone camera to **take a picture of the QR code** (square bar code) that will appear <u>on your</u> <u>computer screen</u> during the setup process and approve on your mobile device. (NOT the one in picture #2 below, which is just an example.)
